5 EVENT ORGANIZATION

EVENTS

We are experts in planning, organising and carrying out events so that you only have to worry about enjoying your day. With a wide experience in the organization, search and selection of catering for weddings, communions, birthdays and everything that goes with them: wedding planner, decoration, cakes, kids entertainment, venue selection, we are an ideal choice to transform your date into a special day.

CATERING

As organizers of events for individual and private parties we work with a large portfolio of catering services for private events (weddings, communions and birthdays). A special day should be accompanied by professional catering with a menu adapted to guests' tastes in which not only quality is taken into consideration but possible allergies and different needs.

At a special day we take care of the search and selection of the best catering, including preparation, tasting and presentation until the monitoring of all the process. If you need additional help we will assess you in each aspect of your event, including guest organization, decoration and all additional shows as well as children's entertainment.

WEDDINGS

Wedding caterers develop menus according to the taste of the couple and their guests. This includes the reception, aperitif, ceremony and end party. All of which full of magical moments, unrepeatable and full of emotion which must be organised and supervised by a professional wedding planner.

When choosing caterers several factors must be taken into consideration, type of menu, special requests (allergies) children's menus, venue and extras (free bar, sweet tables, cocktails and aperitifs) how can we help you?

BIRTHDAYS

Birthday catering should always contemplate a varied menu adapted to all tastes and with the possibility of choice, without forgetting that options must exist for those intolerant or allergic to certain ingredients. We also organise and prepare sweet tables to delight both children and adults alike.

Food depends a lot on whether an event will be celebrated in the open air, a park or garden or a closed space. In some cases it may be better to opt for cold or hot food depending on the complexity. What would be better than combining it with an entertainer, dj or kids' workshop?

COMMUNIONS

Our service of searching and selection of catering for communions offers you total organization of your child's communion in order to make the day special. We take care of the details, smells, flavours and presentation to satisfy the expectations of your guests.

All menus are elaborated with the parents, children's and guests tastes in mind taking into consideration intolerances and allergies that could exist. Combining food with our entertainment services, music and workshops makes sure everyone will have an unforgettable day. What more could you want?

TIPI PARTY

We offer an original plan to celebrate the best children's parties with tipis. At a special day we take care of everything to make sure it's a special occasion whether it be a birthday, pyjama party or kids' event at a wedding or communion to make sure memories last forever. You could call us to celebrate your wedding where we can prepare a perfect children's zone.

Any excuse could be perfect to organise a fantastic kids' event. We organise parties with perfect tipis, designed with themes that your little ones love in order to have unforgettable time alongside their friends and sleeping under a tipi tent.
